General Comments

From 0600-0630, I worked general SAS office duties and prepared for todays cable band data collection on the North Side Span. From 0630-1630, I worked on the cable bands collecting gap distance and circumference numbers for each panel point. One Foreman and 4 laborers worked. I gave the data to Victor for entering into the computer. Refer to Victor for the data. From 1630-1730, I worked general SAS office duties doing diaries, email, etc.
